

OVERNIGHT EMERGENCY ROTATION

The objective of this rotation is for the Emergency/Specialty Mentorship scholar to gain experience in emergency cases. The shift was from 5pm to 1am.

The duties and responsibilities for this rotation included:

- Make a census of the cases currently in the hospital.
- Actively participate in the receiving/triage, diagnosis, and treatment of emergencies.
- Review the treatment protocols becoming familiar with each medication and treatment. These are to include double checking and calculating dosages, reviewing medications, its activities, indications/contraindications and signs of toxicity.
