

# RESEARCH & PRESENTATION

---

The objectives of this rotation will focus on the development of utilizing evidence based medicine and digital presentation skills. The duties revolve around choosing 1 or 2 cases seen during the scholar's time at Iowa Veterinary Specialties.

The student shall:

- Perform a literature search and write a 1 page report on best evidence for the diagnosis and treatment of said case
- Compile case information including images and upload a digital presentation for use at ISU's College of Veterinary Medicine
- Take the same case presentation, but alter it for access by the general public and have it uploaded onto the IVS website
